

# DISCOVERING GUERNSEY

exploring our history

## See Guernsey through different eyes at our FILM NIGHT

10 August, 7pm at Cooked at St James

This informal evening in the relaxed environment of the new Café at St James will comprise a showing of the **Discovering Guernsey** film, accompanied by a talk, which develops many of the themes and people featured in the film.

Part documentary, part promotional, the film showcases the island's rich history, its people and its spectacular scenery. It has been widely praised by a cross section of visitors, tour guides and organisations involved in attracting residents and businesses to the island – as well as by many locals keen to learn more about their home.

---

*"The film is a whistle-stop tour through the history of Guernsey, featuring animation, old photographs, modern-day location shots and stunning drone footage, while a friendly, authoritative narrator links everything together concisely".*

The Guernsey Press

---

The 30 minute film will be followed by a talk by **Stephen Foote**, Vice Chairman of **The Guernsey Society** and publisher of many books on Guernsey and its people under the **Blue Ormer** label. He will pick up on many of the themes featured in the film and add many more which are not widely known, even by locals. He will explore some of the ways in which Guernsey has made its mark on the world, through trade and commerce, exports and emigration and through the exploits of Guernsey men and women - both notable and notorious.

**A fully stocked bar and warm snacks will be available throughout the evening, which will run until approx 8.30pm. Tickets are £5 and available at [stjames.gg](http://stjames.gg) or at the St James Box Office on 711361.**
